

# OrgaCLEAN SL

## CONCRETE REMOVER

**ORGA CLEAN SL** is an advanced cleaning solution formulated by strong acid to remove build-up from concrete, granite, stucco, masonry hauling, handling and finishing equipment with the convenience of “on-site” application. Equipment can be cleaned without fear of environmental hazards.

### FEATURES

- ▶ Advanced eco friendly formula, Fast and effective
- ▶ Cleans better than pressure washing by working deep into the pores of concrete, restoring its original luster and clean appearance.
- ▶ Removes lime scale ▶ Easy to use - simply apply the product and wipe it.
- ▶ User friendly, reduces ‘down’ time. ▶ Safer and harmless.

### APPLICATION FIELD

**ORGA CLEAN SL** Concrete Remover will clean and protect, keeping vehicles and equipment looking fresh and ready for the next job. Use **ORGA CLEAN SL** on vehicles including ready mix trucks, pump trucks, and spreaders, job-site and quarry equipment, and job application tools.

**ORGA CLEAN SL** Concrete Remover is also excellent at cleaning pre-cast concrete forms, thereby reducing consumption of form release chemicals,

### PROPERTIES

Appearance	Clear liquid
Specific gravity	1.07 g/ cm <sup>3</sup>
